Notes

1. Total returns assume that an investor purchased shares at Net Asset Value (NAV) and does not reflect the transaction costs imposed on the creation and redemptions of ETF Units, the brokerage or the bid ask spread that investors pay to buy and sell ETF securities on the Australian Securities Exchange. Total returns are after management costs. Index returns do not allow for management costs. Returns are expressed in AUD, and are converted (when applicable) using WM /Reuters Closing Spot Rates taken at 4pm London Time. Returns assume reinvestment of all income distributions.
